SUMMARY

Budgeting and financial control professional combining 9+ years of high-stakes reporting with hands-on data analytics (Amplitude Laser Group, Doctolib) and an MSc in Data Analytics for Business at KEDGE. Skilled in Python, SQL, BI tools, and machine learning, with a rigorous approach. Looking to contribute to analytics, business performance, or data-driven operations roles, available for an internship or CDD from January 2027.

SKILLS

Excel / Google Sheets (Advanced) • Power BI (DAX, Power Query) • SQL (BigQuery, DuckDB) • Python (Pandas, NumPy, Matplotlib, scikit-learn) • Tableau • Metabase • Looker Studio • Machine Learning (Random Forest, XGBoost, Clustering, Regression)

PROFESSIONAL EXPERIENCE

Doctolib · Levallois-Perret, France

People Strategy Business Analyst Intern | Jul. 2026 – Dec. 2026

- Building the People Data Hub Metabase project from KPI definitions covering attrition, people demographics, terminations, etc., giving People Strategy, People Development, Talent Acquisition, and HRBP a single source of truth: writing the queries and dashboards, working with Data Engineering for required fields and People Information System for Workday's report structure and formulas, and validating figures against the HRMS.
- Delivering ad hoc analytics for cross-functional stakeholders: a global Level 9+ attrition study (Social Impact), a workforce demographics report on composition, geography, leadership, and career growth (External Communication), and a Comex/Comex N-1 span-of-control mapping.
- Maintaining inherited monthly HRBP and office attendance dashboards (AI-assisted via Claude), managing refreshes and QA-checking figures against the HRMS for trustworthy, comparable reporting.

Amplitude Laser Group · Pessac, France

Business Intelligence Analyst Intern | Jun. 2025 – Sep. 2025

- Worked within the after-sales service (SAV) team, translating requirements from the director and stakeholders into BI dashboards (Looker Studio) built from the ground up to track after-sales performance.
- Designed and optimised SQL queries in BigQuery to clean, validate, and structure large datasets for reliable reporting.

Lintas Intim Group · Indonesia

Project Finance and Accounting Officer | Jul. 2015 – Aug. 2024

- Prepared and submitted monthly project progress reports (termijn) to Indonesia's Ministry of Public Works, the basis for government contract payment approvals, where reporting accuracy directly determined payment release.
- Managed budgeting and cost control across multiple concurrent construction projects across Indonesia, and took on payroll and logistics coordination alongside core finance duties at a small, family-run company.

EDUCATION

KEDGE Business School · Bordeaux, France

MSc in Data Analytics for Business | Sep. 2024 – Apr. 2027

Relevant Coursework: Python Bootcamp, Machine Learning, Data Visualization, Business and Artificial Intelligence, Impacts of Artificial Intelligence.

Universitas Terbuka · South Tangerang, Indonesia

Bachelor of Management | April 2023

Relevant Coursework: Operations Research, Economic Statistics, Risk Management.

ADDITIONAL INFORMATION

Portfolio, Consumer Revenue Intelligence: github.com/richhuwae/consumer-revenue-intelligence —

End-to-end analytics pipeline covering behavioural segmentation (clustering), performance driver analysis, churn prediction (Random Forest, AUC 0.903), and LTV modelling on real French market data. Python, scikit-learn, Tableau.

Hackathon, 1st place, CGI France x BNP Paribas Personal Finance: Customer persona pipeline validated against 1,800+ real NPS responses.
